

PRODUCT SPECIFICATION

YUT4809GM5000P5C5VG15

Overview

YUT48 series spindle incremental optical encoder with differential output and a robust mechanical design.

Technical parameters

Resolution: 1000 to 5000 CPR

Count frequency: up to 500 kHz

Supply voltage: 5 V

Temperature: -20 C to +105 C

Output: differential A/B/Z plus U/V/W commutation signals
